

PUBLISHER'S ANNOUNCEMENT

Elsevier has purchased *Cancer Detection & Prevention* from the International Society for Preventive Oncology (ISPO). The first issue to be published under Elsevier ownership is Volume 32 Issue 3.

Elsevier would like to take this opportunity to acknowledge the significant and important contribution that ISPO has made to the scientific and medical community. The Society was founded in 1976 by Professor Herbert E. Nieburgs and a group of associates to study the interactive etiologic factors in cancer development and their impact on prevention, detection and management of neoplastic diseases. *Cancer Detection & Prevention* was established as the official journal of ISPO, publishing original research and review articles in the field of predictive and preventive oncology. Under the leadership of Professor Nieburgs the journal has become an international publication with an Impact Factor and coverage in PubMed/Medline.

The journal will undergo a period of transition as the Editorial Office re-locates to Europe and a new Editorial Team is appointed. Please direct any enquiries regarding *Cancer Detection & Prevention* as listed below:

Since its foundation in 1880 Elsevier has become a world leading publisher of primary, secondary and tertiary information for the scientific, technical, medical and professional communities. Elsevier now publishes more than 1,800 journals and over 1,900 books. We look forward to publishing *Cancer Detection & Prevention* and to working with the community to advance knowledge and improve health care in this important field.

Professor Nieburgs, the Founding Members of the Society, and the founding Editorial Board of the Journal have dedicated much time and expertise to ISPO and to *Cancer Detection & Prevention*. Elsevier is proud to acknowledge their achievements and contribution:

Professor Herbert E. Nieburgs, MD
Secretary General of ISPO, Founding Editor of *Cancer Detection & Prevention*
University of Massachusetts Medical Center, Worcester MA

Ms Suzanne Kay, MLS
Editorial Manager, *Cancer Detection & Prevention*
